

Project Vanrai

Students and Faculty of SCHMTT went to a village close to Pune – Vanrai, to help the farmers with rice transplantation.

They worked along with the farmers and experienced the labour and hard work the farmers go through to grow crops .

The students returned tired but happy . They now appreciate each morsel of rice which goes into their mouths!

SCHMTT students and faculty.

Students and faculty transplanting rice

Tired but happy students and faculty after a long day on the fields.
